Model Number	**VFS100-SS**
Total Capacity	17.5 cu ft.
Refrigarator Capacity	12.39 cu ft.
Freezer Capacity	5.09 cu ft.
Number of Door Bins	6
Number of Shelves	4
Refrigerator Drawers	2
Freezer Drawers	1
Lighting	LED
Leveling Legs	YES
Annual Energy Consumption	512kwh

PRODUCT SPECIFICATIONS

- Model No.: **VFS100-SS**
- Product Dimensions: **29.9"W × 29.2"D × 70"H**
- Package Dimensions: **32.3"W × 30.5"D × 72.7"H**
- Product Weight**: 555 lbs**
- Shipping Weight: **212 lbs**
- Electrical Supply: **120V / 60Hz** Electrical
- hardwire:**Molded electrical plug, Type B (NEMA 5-15)**

Placement Instructions for Your Refrigerator
Choose a stable, flat surface for installing your refrigerator to ensure optimal performance and ease of use. If cushioning is required, use a firm, nonflammable, and stable material.

Important Guidelines:

- Avoid Heat and Moisture: Do not place the unit near heat sources, in direct sunlight, or in areas prone to moisture or water splashes. Excessive moisture can lead to rust and may affect the refrigerator's electrical components. If water or dirt accumulates, wipe it off promptly with a soft cloth.
- Ensure Proper Ventilation: Position the refrigerator in a well-ventilated area. Leave enough space around the sides and back of the unit to allow for airflow. Do not cover or block the air grille located on the rear cover near the compressor.
